

GENERAL INFORMATION

- The CPO program requires just 14-16 hours of instruction by a certified instructor.
- The program includes pool and spa chemistry, testing, treatment, filtration, maintenance, automatic feeding equipment, and government requirements.
- An open-book written examination is required.
- Upon successful completion of the course, graduates receive a certificate and a wallet card. Both items include the graduate's personal CPO registration number which is permanently recorded with the NSPF.
- The CPO certification is recognized nationally and internationally.
- The program has certified more than 200,000 in 44 countries.
- The certification is valid for five years.
- The CPO Program is suitable for all pool and spa operations including: hotels, apartments, residential association, rec centers and gyms, YMCA's, country clubs, cities & states.
- There are now 19 states requiring pool and spa operators to be certified and other states are quickly following this movement.

WHY WAIT? Go ahead and get certified before the rush and to protect your facility from liability.

WHAT IS THE CPO® PROGRAM?

The Certified Pool-Spa Operator (CPO®) program has delivered more training than any other program in the pool and spa industry since 1972. The CPO® program is widely accepted by health departments. The CPO® Handbook is updated annually to reflect new information as it becomes available such as pool water chemistry, filtration, automation, automatic feeding equipment, government regulations. Also covered is disinfection, water balance, pool water contamination, chemical testing, and more.

WHAT WILL THE CPO COURSE DO FOR YOU?

The Certified Pool-Spa Operator Course is designed to prepare individuals in the basic knowledge, techniques, and skills of pool-spa operations. Upon certification, individuals will:

- Understand the role of the CPO in pool operations and management.
- Minimize physical and biological hazards associated with pools-spas.
- Understand the need for proper documentation as it relates to pool-spa operation and liability risks.
- Develop a network of resource materials and personal contacts.
- Become familiar with local and state bathing codes.
- Perform pool calculations relating to water chemistry balance.

Fusion Course
Online Primer and one day of classroom

WHEN ARE THE CPO COURSES?

The course is two days long and covers 14-16 hours of information from The Handbook (mailed to you upon registration and payment) and local codes taught by NSPF Instructors:

Glen Jacobson of Swimming Pool Services
Guest Instructors TBD

Class space is limited to 30 people. This allows sufficient time for special problems and personalized attention. This dynamic setting offers direct interaction with your instructors and fellow students. Pass the open-book exam with at least 75% and earn your CPO® certification.

Pool Operator Fusion™

This one-day class is offered by NSPF Instructors and is often the second day of the two-day Classroom CPO® certification course.

Students must present a Pool Operator Primer™ Record of Completion and successfully complete a Pool Operator Fusion™ class to earn CPO® Certification

The Fusion Course fee includes the CPO book and Primer access code.

Location: TBD

Lunch not provided
